

INTRODUCTION

EGR emulator.

TECHNICAL DATA

Power Supply	12V ±25%
Operating temperature	-40..90°C
Tightness class	IP66

ASSEMBLY

NOTE!

- Any Assembly or changes in the installation should be performed without fuse
- Mounted vertically down while safeguarding against contact with water
- Mount away from strong sources of heat (i.e. the engine block or in the vicinity of the exhaust manifold).
- Mounted away from the ignition and high voltage cables
